

## **RI District 3310 Significant Project 2011-12**

### **END POLIO Trans-Sabah Walk and Climb**

Sandakan – Mount Kinabalu – Kota Kinabalu

7<sup>th</sup> – 18<sup>th</sup> November 2011

- The Walk from Sandakan to Kota Kinabalu is a distance of 326km.
- The Climb up and down Mount Kinabalu is another 2 days.
- The Finish is at the District Conference in Kota Kinabalu on 18<sup>th</sup> November 2011.

Participants will be a team of 10 to 15 Rotarians from various parts of District 3310.

It is a challenging course. We will be crossing the scenic Crocker Range which separates the east coast and west coast of Sabah. At an average height of 1800m, it is the highest mountain range in Sabah. Mount Kinabalu at 4095m, one of the highest mountains in South-east Asia is part of this range.

We will plant Rotary's 'END POLIO NOW' flag at the peak of Mount Kinabalu – a valuable piece of PR.

Many, many other Rotarians, families and friends, especially those attending the District Conference, are expected to participate by walking the last leg on the last day, all donning 'END POLIO NOW' t-shirts.

#### **Purposes**

- To support Rotary's 'END POLIO NOW' campaign, its quest to rid polio from the face of the Earth;
- To inspire, to motivate Rotarians and the public to donate to The Rotary Foundation's US\$200 Million Challenge;
- To enhance Rotary's internal image among Rotarians; and
- To enhance Rotary's external, public image

#### **Target**

To raise at least US\$100,000 for TRF's US\$200 Million Challenge. All clubs in the district are encouraged to participate with Rotarian and public donations.

#### **Funding**

This is a district-sponsored project. Participants are expected to fund much of the project themselves, with some district support.

## COMMITTEE

### Advisor

DG Hj Zainie Abdul Aucasa

### Co-Organising Chairs

PP Tay Wei Lien, RC Singapore West [wltayqs@gmail.com](mailto:wltayqs@gmail.com) +605 96309940
