AREAS OF FOCUS AT THE SUMMIT

Shekhar Mehta
Convenor
 Director, Rotary International

Yash Pal Das
Convenor
 Director, Rotary International

Dear Friends,

A large number of Rotary projects are being implemented in South Asia over years now and if we analyse we will find that the majority of the projects fall under one of the following focus areas:

- ♀ Education
- ♀ Healthcare
- ♀ Water and Sanitation
- ♀ Women's Empowerment

These are also the areas in which global grants can be made. Hence it is very important for us to know how we can proceed with our work in these areas. The best and most effective way is to share ideas and thoughts with one another. The 2013 Rotary South Asia Summit is an excellent opportunity for doing this. Interesting discussions, fine speakers, panelists and experts will all come together at the Summit and share their experiences, thoughts and ideas on the four major areas of focus. Come, listen to the speakers and participate in group discussions and breakout session.

Education

- ▲ Renovation of schools
- ▲ Distribution of desks and chairs
- ▲ Providing school uniforms, books and stationery
- ▲ Volunteering to teach
- ▲ Developing e-learning systems
- ▲ Adult literacy, vocational training and skills development etc.

You are sure to wish to know about all the projects being done in this field and learn from the success stories and failures.

Healthcare

- ▲ Heart surgeries for children
- ▲ Mega Health camps
- ▲ Promoting disease prevention programs
- ▲ Enhancing the health infrastructure of local communities
- ▲ Helping the physically disabled – artificial limb camps, wheelchairs etc.
- ▲ Setting up clinics, blood banks, hospitals

Come and find out about all the possible ways in which you can involve yourselves and make a difference.

Water and Sanitation

- ▲ Check dams
- ▲ Bore wells
- ▲ Rain water harvesting
- ▲ Toilet construction – in rural and urban areas
- ▲ Toilet construction in schools
- ▲ Educating children about health and hygiene

This is our chance to meet all the people working in these areas and share details of each other's projects.

Women's Empowerment

- ▲ Educate young girls
- ▲ Adult Literacy programs for women
- ▲ Vocational Training Centres for women
- ▲ Creating employment opportunities for women thereby making them financially independent
- ▲ Provide reproductive health counselling
- ▲ Maternal and child health programs
- ▲ Micro credit

Exchange thoughts, ideas, views and proposals. Be inspired by ongoing projects and come up with new innovative ideas on the field.
